

Graph Manager

User Interface:

Commands Available:

newspec <spec_name>
delspec <spec_name>
specs

Graph Spec:

- Range Min and Max
- Scale Division
- No. of Inter-Divisions
(above 3 duplicated for X/Y)
- ~~- Window Size and position~~
- Border width along each size
- Major/Minor Tick sizes

Facilities Offered:

newspec - request new graph spec - user is then prompted for appropriate data

delspec - delete named graph spec

specs - display complete graph spec list

Graph Manager maintains a list of graph specs - each spec having a unique identifying name to the list.
All UI commands are publicly accessible member functions of the Graph Manager
